FOREWORD

This is the eighth bibliography issued from the Educational Materials Center of recent books about education; it lists those received in the Center since the seventh bibliography in this series (*Education—Literature of the Profession,* 0E–10060) was issued as of December 31, 1968.

Copies of all books included are available for examination in the Center. The Center distributes only its own publications; therefore the materials described here are not available from the Office of Education, but can be obtained through the usual commercial channels or from the publishers.

Users of this list who wish information about other reports of the Center are requested to follow the directions under "Requests for Reports" on the inside back cover.

Entries are grouped according to subject under "Books and Monographs" or by format, including indexes, periodicals, and newsletters, as indicated on the "Contents" page. Annotations have been provided for individual publications only where the title is not self-explanatory.

Place names for publishers have been omitted and a short form of identification used; complete names and addresses of publishers are provided in the final section of the bibliography.

This report was made by Eunice von Ende of the Biological Sciences Communication Project of the George Washington University, Washington, D.C., pursuant to contract OEC–3–8–080344–0037 with the Office of Education, U.S. Department of Health, Education, and Welfare. Inclusion of titles in this listing does not represent official opinion or endorsement by the Office of Education.
